1. Background

Company History

Betheltech Electronics was founded in 2007 and has remained a privately-owned, independent company (Sole trader). Originally a Repair shop and network operator, in 2013 we launched our high-speed, wireless network linking Masvingo to the rest of the world. And now we've grown to provide services to more than 20 users and companies operating in Masvingo, Zimbabwe, southern Africa, Europe, as well as the national and international enterprise market.

Betheltech was started by a young man who has a desire to disseminate information to different Districts and Regions in Masvingo Province. Working together with the Family Of God church it managed to open a resource centre at Bako Area in Gutu that aims at improving the lives of ordinary Zimbabweans.

What we do

Betheltech provides connectivity services for organizations across many sectors. In an increasingly competitive environment, we're one of the few Zimbabwean operators able to use carrier-grade services to enhance our corporate customers' network efficiency and help facilitate transactions.

We have specialist teams with expertise in logistics, repairs, trainings, networking, programming, websites and database designing, consultants and accessories distribution.

2. Strategy & Vision

Vision statement

To provide a better working solutions to individuals and cooperates that will produce skilled and confident staff in doing so improving lives of people at different levels.

Mission statement

Our mission is to transform Individuals through:

- Providing leadership in ICT to the industry through superior context-related solutions.
- Using innovative technologies and solutions (innovation)
- Creating a lasting legacy which creates wealth for all stakeholders.
- Advocating for sustainable development in the Information Communications Technology arena

Values

- Integrity
- Excellence
- Continuous Learning
- Relationships
- Accountability and Stewardship

Business goals & objectives

The company is working towards becoming one of the biggest ICT Consultant provider to schools in Masvingo province and the country at large through ELearning.

Growth strategy

The company is seeking to open many branches at Growth points and towns in Masvingo province. This will diversify the number of customer as well as providing the services to even remote areas which do not have access to ICT.

3. Products & Services

Products

Hardware and Accessories

In ICT we have engaged different companies in and outside Zimbabwe for computer hardware and accessories. These companies include Mikrotik South Africa, Cisco Products and TP Link Products. Our study proves that these accessories work efficiently in Zimbabwe ICT environment.

We also brand new and second hand accessories for all equipment in the ICT sector , by doing this we motivate machinery servicing for good output in this sector, therefore just email to our sales departments they will call you back

We do computer repairs

Come to BethelTech Electronics for computer repairs, virus removal and any other assistance with your PC. For seriously affected PCs we can install a new operating system altogether for \$20.

We do phone repairs as well. If you need your phone's software flashed, we also do that – for \$10.

Internet Network Setups

If you want your home or institution to get an internet connection, we offer that service at BethelTech Electronics

Services

Internet Access over Wireless

By delivering Africa's widest wireless coverage, we connect enterprises all over the country, regardless of location. We provide the out-of-town offices of many multi-companies with the same fast, reliable, secure network that their head offices enjoy. And because our wireless network is connected to our Fibre and Vsat, you can rely on us to keep your businesses connected to each other and the rest of the world.

We also offer monthly internet subscriptions where an individual pays \$30 to access the internet at our office, unlimited for the whole month.

We set up networks for homes as well so people can access fast internet from their homes.

We offer lessons for those who want to learn from the start how to use a computer

We will make a plan with you on how the lessons will be conducted. You choose what fits you best, you can choose to have your lessons from your home we will come to you, or we can conduct the lessons right from our BethelTech Electronics office at 50 Hellet Street, on the Errant Travel and Tours Building.

Duration

The lesson last for a month for those who are starting to use computers for the first time. You can choose a shorter duration if you prefer that.

Who can come?

Anyone, from those who want to learn to use computers for the first time or those who want to improve their skills.

What you will learn

You will learn how to use Microsoft Office programs thus Microsoft Word, Excel, PowerPoint, Access and more. You will learn how to use the Internet.

ELearning

We offer a service for primary and secondary school students called MLibro.

So What Is MLibro?

MLibro is a software that is installed on a PC, on Windows, Android and iOS devices. The software does not need an internet connection for you to use it – it runs offline. From it you can study your school subjects, science, maths, content, physics and others. The software includes videos illustrations.

Online Library

At Betheltech we value information dissemination hence we run an Online Library system that offers researcher access to internet facilities at minimum costs. The research platform consists of rich research data from researchers.

How Do I Get It?

Go to mcourser.com and download the version for your device. There is also a register button there for you to register yourself. Or you can come to BethelTech and we will set that up for you.
